

Flu Vaccinations

Due to the COVID-19 pandemic, this year's flu vaccinations will be offered in a phased format that will continue until December. The vaccine is provided in line with Ministry of Health directives.

In order to avoid crowding, vaccines will be given **in a phased manner to high risk and very high risk patients.**

Currently, the vaccine is only being given to those who have been invited to make appointments. This will be expanded as much as possible when the full vaccine order is received, depending on the vaccination uptake rate.

For more information, please visit clalit.co.il or contact the Clalit call center at *2700

We wish you good health and thank you for your cooperation.
